## Module 4 Assessment

LATEST SUBMISSION GRADE

100%

1. Which one of the following statements about epics is true?

1 / 1 point

- ☐ They must contain other issues.
- ☒ They can serve as a placeholder for many issues.
- ☐ They can not contain other issues.

Correct

This is covered in Epics.

2. Which one of the following statements about epics is true?

1 / 1 point

- ☐ They are also called releases.
- ☐ They can not have subtasks.
- ☒ They are an issue type.

Correct

This is covered in Epics.

3. Which one of these is a common characteristic of issues in an epic?

1 / 1 point

- ☒ Their "epic link" field has the same value.

- ☐ Their "issue type" field has the same value.
- ☐ Their "fixVersion" field has the same value.

**Correct**

This is covered in Epics.

4. How do you configure swimlanes based on epics?

**1 / 1 point**

- ☐ In advanced search.
- ☐ In project settings.
- ☒ In the swimlanes tab of board settings.

**Correct**

This is covered in Epics.

5. Which one of the following statements is true?

**1 / 1 point**

- ☐ Issues in a version are moved to a separate project.
- ☒ If the "fixVersion" field for an issue has a value, the issue is part of a version.
- ☐ Issues in an archived version are no longer query-able.

**Correct**

This is covered in Versions.

6. How do you add multiple issues to a version in a single operation?

**1 / 1 point**

- ☐ Search for the issues that you want to add, then bulk change their "resolution" field.
- ☐ Search for the issues that you want to add, then bulk change their "affectsVersion" field.

- ☒ Search for the issues that you want to add, then bulk change their "fixVersion" field.

**Correct**

This is covered in Versions.

7. Assume that you have a kanban project. You release a version and issues "disappear" from the done column. Which one of these best describes what happened to them? **1 / 1 point**

- ☐ They have been moved to an archived project.
- ☒ The board's sub-filter prevents them from being displayed.
- ☐ You no longer have permission to view them.

**Correct**

This is covered in Versions.

8. When you create a release from the Release dropdown above a kanban board, what happens? **1 / 1 point**

- ☐ All of the issue on the board are added to the release.
- ☒ The issues from the done column are added to the release.
- ☐ The issues in the done column get moved to a different project.

**Correct**

This is covered in Versions.

9. What does the following JQL search for? "fixVersion in unreleasedVersions() OR fixVersion is EMPTY" **1 / 1 point**

- ☐ All issues in the done column of a project.
- ☒ All issues that are part of an unreleased version or that are not part of any version.
- ☐ All issues of a single version.

**Correct**

This is covered in Versions.
